

RECYCLED POLYESTER

Using recycled polyester to make your school uniform saves thousands of plastic bottles from going to landfill!

HOW DOES IT WORK?

Recycled polyester is made by melting down existing plastic and re-spinning it into new polyester fibre.

DID YOU KNOW?

Recycled polyester has just the same look and feel as the polyester used in all our blazers – the only difference is that it's made from recycled plastic! This prevents plastic reaching landfill and our oceans!

Yarn knitted, cut and sewn into garment
