LDD – Learning Difficulties and Disabilities.
Unknown – young people whose destination cannot be confirmed. A section of this group counts towards the adjusted NEET figure.

Destination Categories
Sixth Form – includes school sixth form and sixth form college.
FE College – Further Education.
Other Education – includes Year 11, higher education, education outside of area, gap year students and custodial sentences.
Non-Emp Training (FT) – includes full time provider-based foundation learning, non-employed apprenticeships and traineeships.
Employment (FT) – includes full time jobs with training and employed apprenticeships.
EET (RPA not met) – includes full time jobs without training and part-time education/ employment/ training.

NEET - Not Available – unemployed and unavailable for work, e.g. young carers and asylum seekers.
Other – includes unknowns, moved out of area, pregnancies, teenage parents, illness and unpaid personal development opportunities (activities to support young people to enter EET).

Note.
Due to rounding of multiple numbers the figures in some tables may not always add up to precisely 100%.
The data relating to the gender of the young people only includes those people who consented to having their gender recorded. As such the totals may not match the expected cohorts where a gender isn't logged.

Introduction

This booklet has been put together by the Youth Analysis Service (YAS) for schools and academies (referred to as establishments in this booklet) across Hampshire. It provides key figures for young people who completed Year 11 on 31st August 2014.

The topics covered in this report are based on the performance measures used by the Department for Education (DfE). Figures are given at establishment and Local Authority (LA) level.

This booklet acts as a resource for establishments to monitor their current performance, to plan future strategies and to spot potential issues before they arise.

This booklet is based on a cohort of young people who were recorded as being academically aged Year 11 and in an establishment in Hampshire as of 31st May 2014. The data relating to the cohort is a snapshot of their status as of 1st November 2014.

The following data and information in this booklet has been compiled from the Client Caseload Information System (CCIS) database used by the Youth Support Service (YSS) in Hampshire, Isle of Wight and Portsmouth. The content is generated by a program that identifies the destinations, as of 1st November 2014, of young people who completed Year 11 in the academic year 2013/14.

Due to Raising the Participation Age (RPA) legislation, as of September 2014, young people are now under a duty to participate in education or training until the end of the academic year in which they turn 18 (academic Year 13).

This is an important piece of education legislation with particular relevance to vulnerable young people. As a high performing education sector, nine out of ten young people in Hampshire already progress successfully to post 16 education and training. Due to this legislation, it is now even more important that our services support all young people with participating in post secondary education. Primary responsibility for providing independent and impartial careers guidance on participation options now rests with establishments directly.

Raising the Participation Age (RPA) Summary

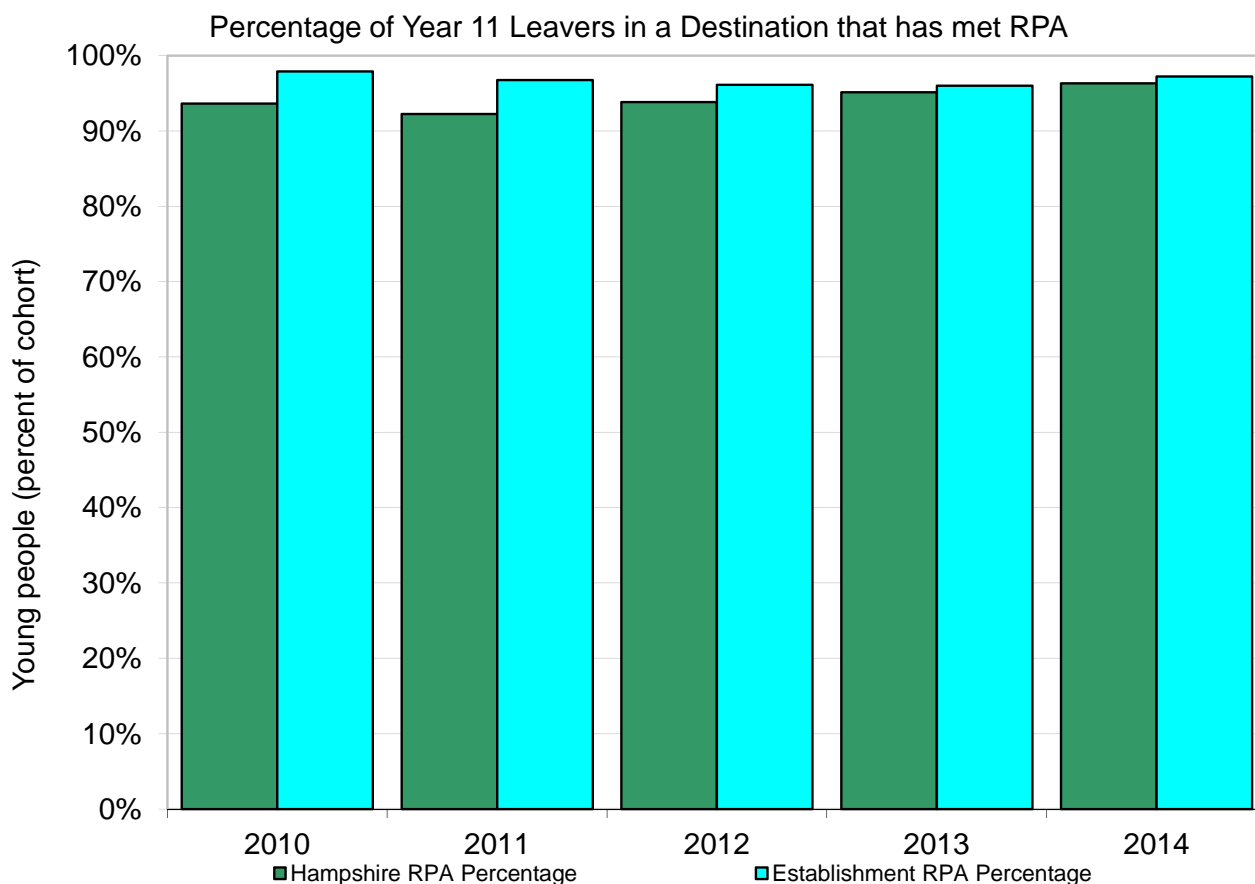

Table 1 shows the percentage of Year 11 leavers who were in a participating destination for the last 5 years. The 'Other' category includes young people whose destination is unknown, who have moved out of the area, or who have the RPA status 'Working towards participation' or 'Temporary Break'.

Table 2a shows the number of Year 11 leavers who were in each destination category for the last 5 years at LA level. Table 2b shows the same data as percentages.

The figures have been grouped into 9 categories so the data can be displayed more clearly. The Destination Category table in the glossary on page 2 defines each category. See appendix for how these relate to the categories used in previous Activity Survey booklets.

Hampshire Education Courses

Table 4 shows the course types (as both a number and a percentage) of Year 11 leavers who went on to full time education across Hampshire.

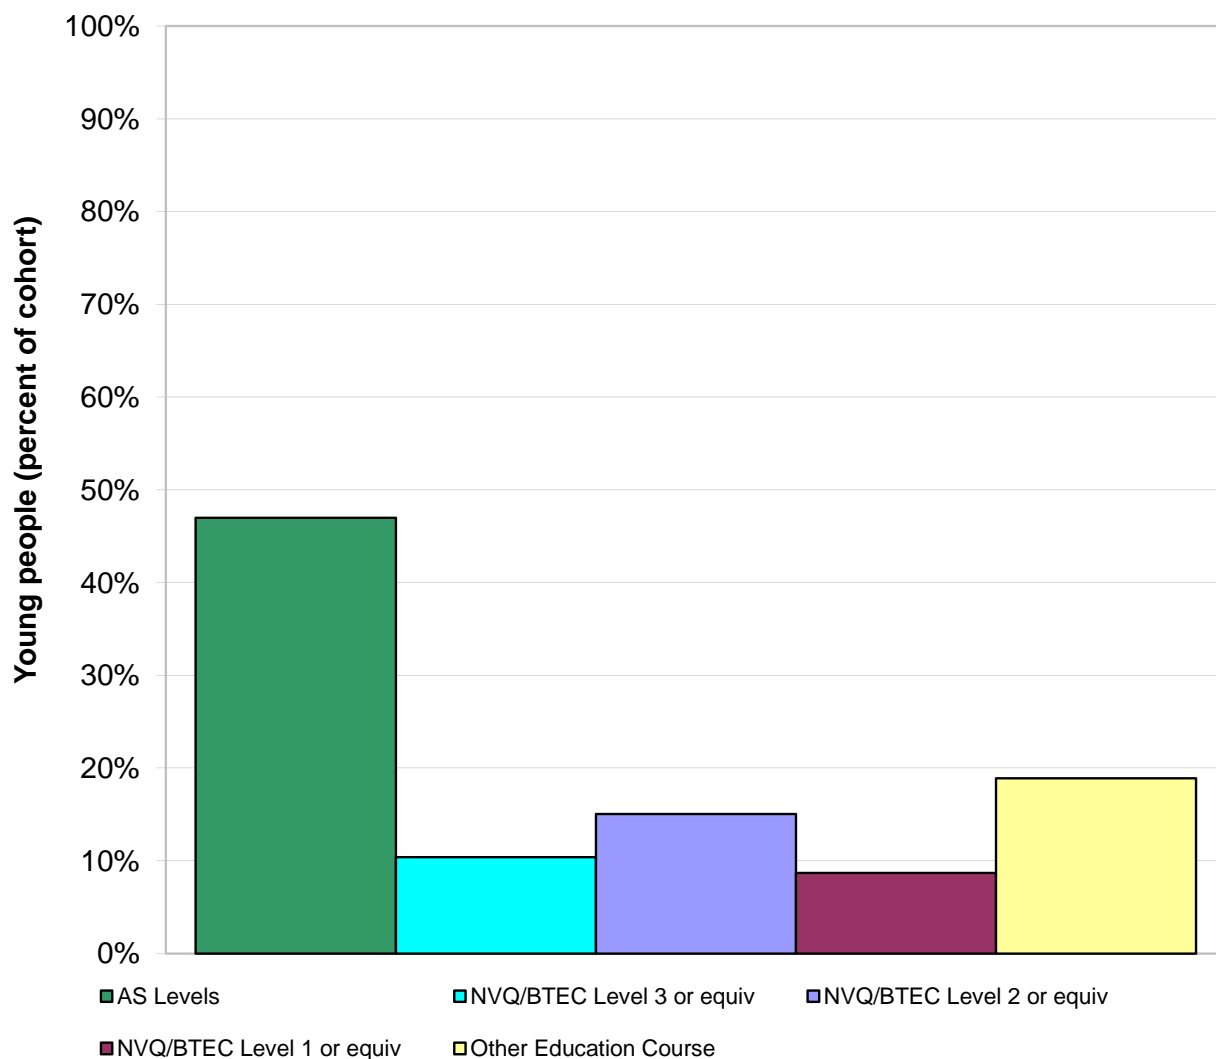

Table 4.

For clarity 'Vocational A Levels' have been included in 'AS Levels'. Other courses (including continuation years of any course) come under 'Other Education Course', which also includes course types that were not specified in the data sent by further education establishments.

Graph 4.

Comparing graph 5 with graph 4 shows that the percentage of Year 11 leavers going into education from The Westgate School who are now enrolled on 'Other Education Course' is lower than the Hampshire percentage but 'AS Levels' is higher than the Hampshire percentage.

Graph 5.

Hampshire Leaver Destinations by Gender

Table 6 shows the destinations of Year 11 leavers, at LA level, by gender.

Table 6.

Not Participating Total	143	2%	75	1%
Other	147	2%	141	2%
Total	7,073	100%	6,519	100%

Graph 6 shows that the general trend across Hampshire is for the majority of both genders go on to further education, with Sixth Form being the more common destination. This is to be expected as a result of the balance of sixth forms and FE colleges in Hampshire.

The percentage of Year 11 leavers not meeting RPA requirements is low for both genders (4% for males and 3% for females).

Graph 7 shows, amongst Year 11 leavers from The Westgate School, females are more likely to go on to 'Sixth Form' than males are, whereas a higher percentage of males than females move into 'FE College'.

Graph 7.

Destinations of Year 11 Leavers by Gender - Establishment Level

Hampshire Leaver Destinations by LDD Status

Table 8 shows the leaver destinations of the Year 11 LDD/Not LDD cohorts at LA level. LAs and establishments have a responsibility to track and support young people with LDD until the age of 25. For this reason it is particularly important to support these young people in getting into a destination that meets RPA requirements.

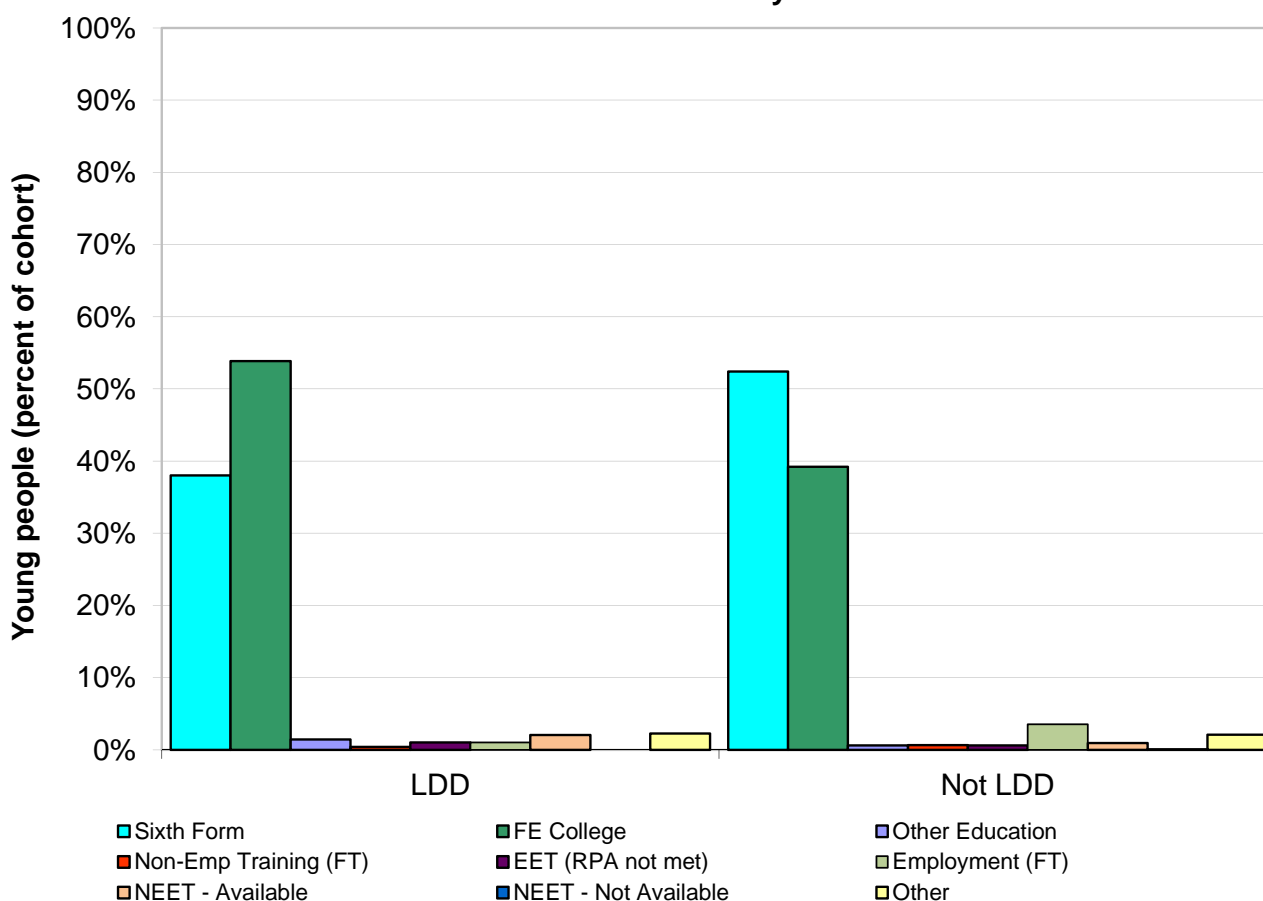

Table 8.

Destination	LDD		Not LDD	
Sixth Form	187	38%	6,925	52%
FE College	265	54%	5,182	39%

Total	492	100%	13,221	100%

Graph 8 shows that the LDD population largely follows the pattern of the non LDD group with the majority going on to some form of further education. However, in the LDD group FE College is a more popular destination than 6th Form.

LDD destination figures are provided as they are considered a useful guide for establishments for assessing the outcomes of their support for LDD pupils. Where LDD cohorts are low, however, it will not be possible to draw conclusions from any statistical comparisons with the LA.

Graph 9.

Hampshire Leaver Destinations by Ethnicity

The official DfE figures split the ethnicity data into 19 ethnic groups. As the numbers are so small for any ethnicity other than White British in most Hampshire establishments, this year's booklet has split the figures into the categories of 'White British', 'Black and Minority Ethnic' (BME) and 'Unknown Ethnicity'.

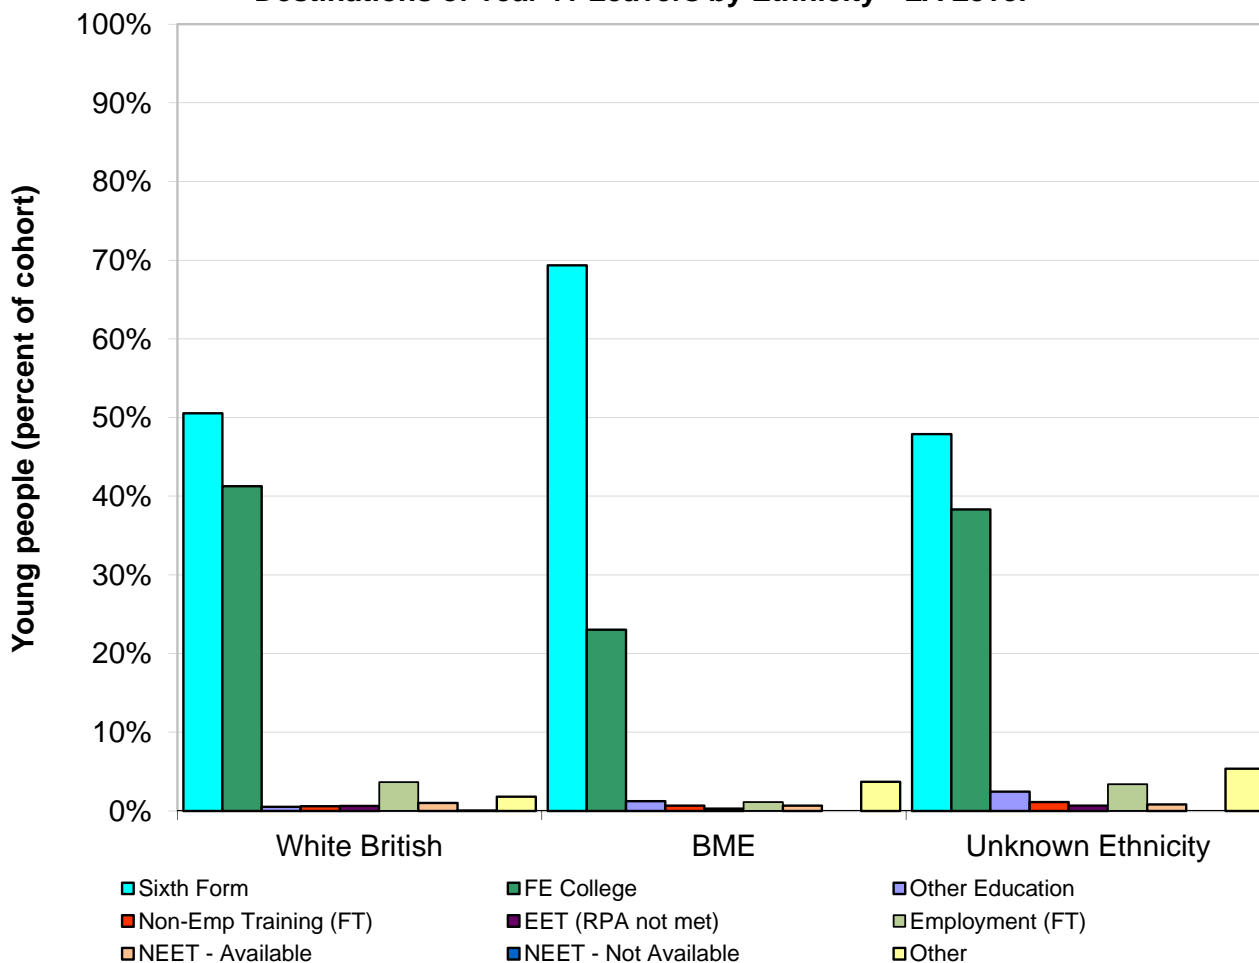

Table 10 shows the destinations of Year 11 leavers, LA level, by their ethnicity.

Hampshire September Guarantees and RPA Met

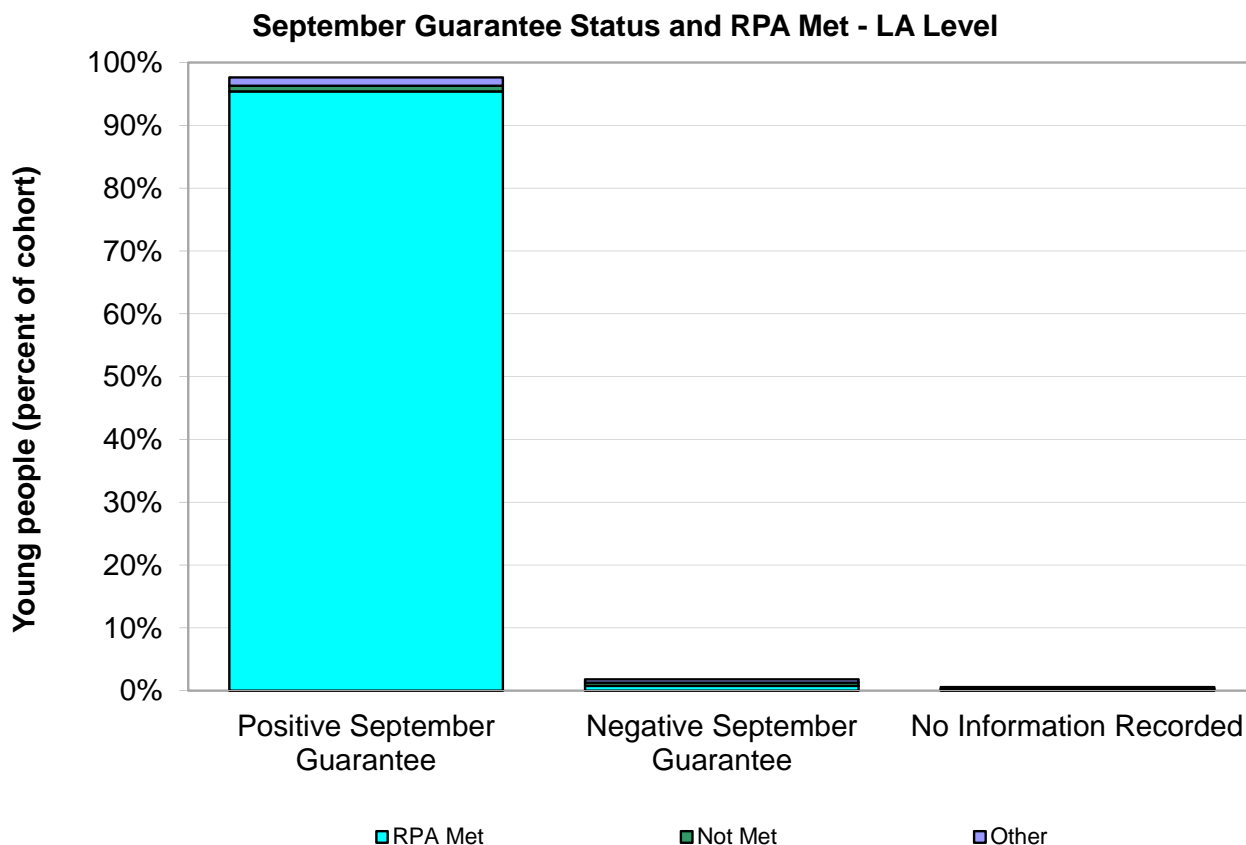

September Guarantees should give Year 11 leavers the opportunity to enter a destination that meets RPA. The height of the bars on graph 12 show the percentage of young people who received a September Guarantee. The colour of the bar shows the proportion of those young people who are now in a destination that meets RPA. The majority of people who had a positive guarantee went on to meet RPA, which shows the effectiveness of the September Guarantee process.

Table 12 compares the number of Year 11 leavers who had a September Guarantee with the number now in a destination that meets the RPA requirements at LA level (see appendix for the destination types that count as 'RPA Met').

Graph 14 compares the proportion of Hampshire leavers who go on to their intended destination with the proportion of The Westgate School leavers who did so. The 'Other' category figures have not been included in graph 14, as the relevant information is not available to put them in either category.

As graph 14 shows, the proportion of The Westgate School leavers going on to their intended destination is higher than the Hampshire average.

Further Education Establishments Attended

Certain factors, such as the courses offered by an FE establishment, can greatly affect the gender ratio of those who attend. Table 15 shows the establishments attended, as of 1st November 2014, by the Year 11 leavers from The Westgate School who continued in full-time education at establishment level. The figures include any young people academically aged Year 11 who are repeating a year of statutory education.

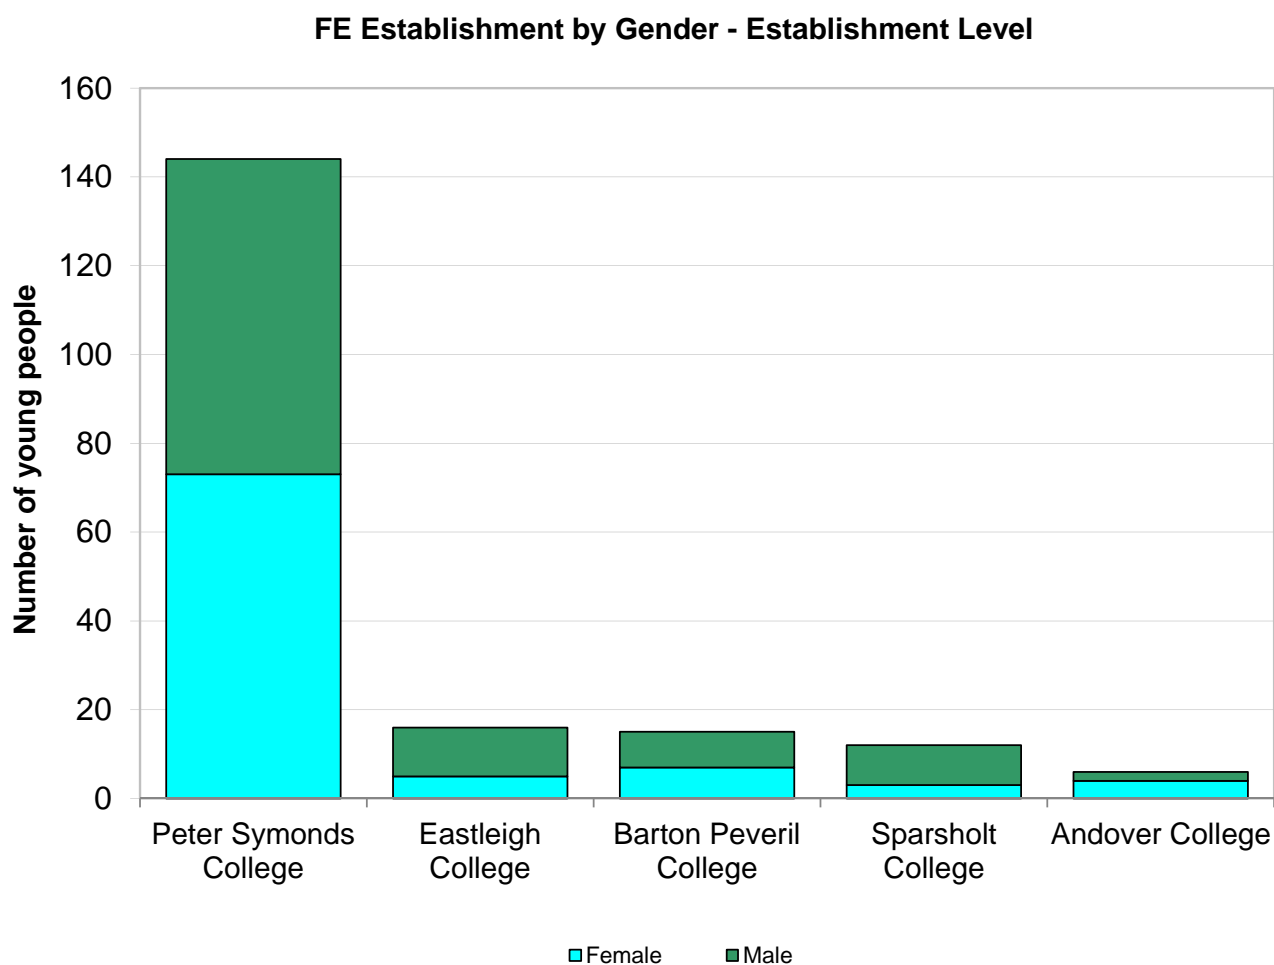

This data is only for the five most popular establishments. Year 11 leavers also attended Basingstoke College of Technology, The Westgate School, Brockenhurst College, Highbury College, Queen Mary's College, Richard Taunton Sixth Form College, South Downs College and Southampton City College.
